SENATOR MCMILEAN, who was buried yesterday, was one tof the strong men of the Senate, and yet he could not make a creditable speech, It does not necessarily follow that in order to be one of the strong men of the United States Senate one must be incapable of making a creditable speech. Neither does it mean that ability to make a creditable speech is the hallmark of strength in the Senate of the United States. And yet we notice a disposition to emphasize this feature of it. As a matter of fact Senator McMillan was a good deal of a man, with a big heart and a big brain, and that is the reason he was strong and great. The fact that he could, or could not, make speeches had nothing to do with it.

Steel trust officials here say it is only Schwab's summer vacation. If Schwab retires from the presidency of the corporation; James Gayley, first vice president, is most likely to succeed him. Gayley now has charge of the corporation mines, railroads, docks and steamers. His age is 45. He entered Carnegle's employ in 1885.

Loretto, Pa., Aug. 18 -President Charles M. Schwab of the United States Steel corporation has accepted through him.

Mr. Schwab is not confined to his bed, but spends much of his time upon the wide veranda which affords fresh air and a sweeping view of the mountain slope. He is always with his wife or his parents. The strange par of Mr. Schwab's illness is that he is always within view of those who call at his house, yet he will not allow any person to approach him. Heretofore the visitors to the Schwab home were greeted with a hearty welcome and a vigorous handshake. Now the visitor is met at the entrance and told that message and none has been able to converse with President Schwab since he came back to his home,

When a newspaper man called Mrs. Schwab said her husband would inot see any person and had not been receiving visitors for many days. Mr. Schwab sat on a couch within hearing of the voices. APPENDICITIS. Some Facts Regarding Its Rapid Increase. Appendicitis among Americans is

certainly increasing and while this is probably due to the excitement and worry of American business life, it is more often directly traceable to constipation. Appendicitis is caused by extraneous matter entering the vermiform appendix and not by the swallowing of seeds. If the digestive organs are kept in perfect condition so the food is duly assimulated and the bowels move gently, at least once a day, appendicitis will never develop. Don't take chances. Regular doses of Dr. Caldwell's Syrup Pepsin before meals will strengthen the organs of digestion, your appetite will be good constipation disappears and you feel better in every way. Dr. Caldwell's Syrup Pepsin does not relax the bowels by irritation, but by curing indigestion, the cause of constipation. Chrs. B. Spencer, Iola, Kinne & bottles, under a positive guarantee.
